

Steps to acquire a book/item

The process described below to acquire books and articles is "at your own risk"! (i.e. it is strictly forbidden to visit the following sites)...

- **books or articles** : [gen.lib](#) (to access, you may have to go through [TOR](#) or other)
- **scientific articles** : [Sci-hub](#) (to access, you may have to go through [TOR](#) or other)
- **books or articles** : [Zlibrary](#)
- **bouquins de fiction** at [Baby-woods](#) (it looks like the layout of gen.lib, it must be a russian site... but under the radar... sometimes it doesn't work, I don't know why...)
- **OTHER** (feel free to add the sites you use)
